Background and Instructions:

This form has been developed to permit LMEs to request the establishment in IPRS of Alternative Services to be used to track state funds though a fee-for-service tracking mechanism. An LME that receives state single stream or other state non-UCR funding shall use such funding to purchase or start up services included in the Integrated Payment and Reporting System (IPRS) service array and directed towards the approved IPRS target population(s). If the LME wishes to propose the use of state funds for the provision of an Alternative Service that is not included in the IPRS service array, the LME shall submit an *LME Alternative Service Request for Use of DMHDDSAS State Funds*.

This form shall be completed to fully describe the proposed Alternative Service for which Division approval is requested in order to develop an IPRS reporting code and an appropriate rate for the Alternative Service.

Please use the following template to describe the LME's proposed Alternative Service definition and address all related issues using the standard format and content categories that have been adopted for new MH/DD/SA Services.

Please note that:

- an individual LME Alternative Service Request form is required to be completed for <u>each</u> proposed Alternative Service;
- a separate Request for Waiver is required to be submitted to the Division for the LME to be authorized by the Secretary to directly provide an approved Alternative Service; and
- the current form is <u>not</u> intended to be utilized in SFY 07-08 for the reporting on the use of county funds by an LME. The Division continues to work with the County Funds Workgroup to establish a mechanism to track and report on the use of county funds through IPRS reporting effective July 1, 2008.
